

Life Settlement Assets PLC – Ordinary Share A

Investment Objective

The company's investment objective is to achieve capital appreciation by purchasing policies or portfolios of life settlement and mortality-related products in special or distressed situations.

Commentary

The Internal Revenue Service (“IRS”) has proposed a new set of regulations that could affect life settlement market players and create new streams of life settlement market data. The IRS developed the draft to implement a new life settlement transaction reporting requirement included in the Tax Cuts and Jobs Act of 2017 (TCJA). Particularly, officials would require the policy issuers to inform the sellers about their investments in the contracts, thereby providing the sellers with the necessary information to calculate their taxable income.

Share Class A had a positive performance of 9.64% for the month of February. Ten maturities for a total death benefit of \$ 1.1M were registered in the HIV segment; three policies on one insured were reported maturing in the non-HIV segment. The non-HIV insured was the largest exposure in the Share Class for a total coverage of \$ 13.7M.
